

The Screw Flights listed below are considered to be the most commonly used sizes. Jacmor Engineering can manufacture Screw Flights in numerous sizes ranging from 19mm to 2,500mm in diameter and 2mm to 40mm in thickness.

Ribbon, Tapered and Variable Pitch Flights are available on application.

Ribbon Flights are manufactured with integral spokes for strength and ease of fitting.

Jacmor manufacture Screw Flights from a range of materials including Stainless Steel 304 and 316, Mild Steels, Bisalloy Steels etc. Flights can also be hard faced and or coated with wear protection materials.
